Jill – **Ex. 5 - Deliberative Process**
Ex. 5 - Deliberative Process Peter, Dan, and Michael Szerlog (not Rylko) are attending in person, and I'm trying to connect remotely. I don't think ERSMU needs to be involved, but let me know tomorrow a.m. if you feel differently. (Today, the meeting shrunk from 6 hours to 2 (11:30 – 1:30pm), but Christine has been unable to get VTC instructions, so I may just be calling in.)

Hi David,

If it's possible, could I join you on the VTC with Puget Sound Team and the Corps of Engineers on Shoreline issues, and I'd like to also invite Justine/Bridgette if they're free. That way we all hear the same thing at the same time. If you think that sounds good, please forward the meeting information when you have a chance. And if not, hopefully you and I can catch up on what you hear after that meeting ends. Thank you! Jill

Jill

Yes that would be good. The meeting with the Corps is tomorrow. Michael, Dan and I are driving down together and David A will be in VTC.

Hi Peter,

I hope all is well. **Ex. 6 - Personal Privacy** I saw the note from the Puget Sound team about meeting with the Corps of Engineers last week. It got me thinking again about setting up some kind of regular coordination call with you – I do that once a month with Cara in ORC to keep each other in the loop on things. My unit does a lot of work with the Corps related to dredged material management and 404/MPRSA permits in Puget Sound as well as the Mouth of the Columbia River and off

the Oregon Coast.

Would you be interested in a 30 minute once a month (or every 3 weeks) meeting to touch base with each other on the things we're doing where there might be some overlap? I know that Erik, as well as others on my staff, are interested in exploring how we might keep each other in the loop more on our respective work. I was thinking that if we met, we could share what we know and information could flow from there. What do you think?

Thanks! Jill
